Subj: HISTORICAL RADIOLOGICAL ASSESSMENT FOR APRA HARBOR

Ref: (a) 40 CFR 300.800

Encl: (1) Historical Radiological Assessment, Apra Harbor Naval Complex,  
Territory of Guam, Volume I of Feb 06

1. The Historical Radiological Assessment, Volume I for the Apra Harbor Naval Complex is being forwarded as enclosure (1) for your information and file. This document presents a comprehensive review and assessment of radiological environmental data associated with the Naval Nuclear Propulsion Program (NNPP) in Apra Harbor from 1961 to 2004. Based on this assessment, past and current NNPP activities in Apra Harbor have had no adverse impacts on human health or the environment.
2. Volume II of the Historical Radiological Assessment, which will address general radioactive material (G-RAM), including all non-NNPP operations, will be forwarded once it is finalized.
3. Enclosure (1) is being forwarded for your administrative record file as required by reference (a). The official administrative record file is maintained at NAVFAC Pacific.
4. Should you have any questions, please contact Ms. Jan Kotoshirodo of our Environmental Restoration Product Line at (808) 472-1432.

A handwritten signature in cursive script, appearing to read "Darlene Y. Ige".
