Additional Messages:

TO: NAVSEADET RASO (CODE 01)
PROGRAM SUPPORT DIRECTOR/ LLRW COORDINATOR

FROM: USS HOLLAND (AS-32)/ R-5 DIVISION
RADIAC CALIBRATION LABORATORY (67F)
APRA HARBOR, GUAM

ATTN: LAURA MILLER

SUBJ: DISPOSAL OF LLRW

REF: (a) OPNAV NOTE 5100 DATED 7APR92
(b) DISPOSITION INSTRUCTIONS FOR RADIAC PROGRAM ITEMS
ABOARD USS HOLLAND FROM NISE EAST (CODE 322KF) KEN FERTIG

1. We recently received direction in reference (b) to dispose of IM-253()/PD calibration sources that have exceeded 6 half lives in accordance with local instruction. Our local instruction, reference (a), directs us to NAVSEADET RASO for proper disposal procedure.

2. We currently have two sources for which we need instruction.
a.) Cd-109, original curie content 8.33 uCi on 1 OCT 86. It has exceeded seven half lives.

b.) Na-22, original curie content 1.12 uCi on 29 JUN 79. It has exceeded six half lives. This particular source is part of a four source set: PRM-5N/SPA-3 and CRM-595/GP595 serial # 32. The remaining sources of the set expire in 1998, 2004, and 2043.

3. This information and any other information you may deem pertinent to the deactivation of the USS HOLLAND NSF and RADCAL LAB concerning RAM and G-RAM would be greatly appreciated.

4. POC - ET2(AW) Bonnie Eicher, RADCAL LPO/Supervisor
